

The Living City Campus at Kortright, Canada's Photovoltaic Test Facility is pleased to announce the official program launch of the Photovoltaic Performance Verification Program

PVPV performs third party performance monitoring of Domestic Content Modules and provides high quality, unbiased energy yield and environmental data to the solar industry.

Please join us at 12:08 pm on December 2nd at the Kortright PV Test Field for a ribbon cutting ceremony to be followed by a light lunch and networking event in the Archetype Sustainable House.

Please RSVP Caroline MacGillivray cmacgillivray@trca.on.ca

PVPV is pleased to welcome the following participants to the program:
