

GP JOULE PV Canada Corp. a subsidiary of GP JOULE GmbH, a diversified renewable project developer and Engineering, Procurement and Construction (EPC) service provider headquartered in Reußenköge, Germany with offices across Europe, the US and Canada. The Americas team is focused on renewable project development as well as full turnkey EPC services for the North and Latin American markets. Headquartered in Toronto, Ontario, Canada, with satellite offices in California, and Calgary, we specialize in ground mount solar photovoltaic installations for both commercial and utility scale projects and can offer unique solutions in short and long term financing.

As a growing international private company, GP JOULE values authenticity, fair business practices, innovation, quality and zest for life. We look for highly-spirited people embracing those same core values to join us!

About the Opportunity

As part of its expansion in North America, GP JOULE is launching a new Product Division focused on developing, designing, managing, selling, delivering (manufacturing, quality, site support, logistics) and maintaining (engineering change management, warranty, etc.) a series of proprietary Solar PV systems and solutions (PHLEGON Single Axis Tracker, CULTIVECO PV Greenhouse, Carport, PV Foundations, etc.), all complementary to GP JOULE's core business in Project Development and EPC. As such, the company is looking for talented individuals eager to learn and grow in a fast-paced and entrepreneurial environment. The position will report to the Director, Products Division.

Key Responsibilities

- Manage input of material and labor costs database
- Develop and maintain standard system costing models for each product by type, region, etc.
- Send out RFQ packages to OEM suppliers and manufacturers
- Package new opportunity costing as deliverable to Sales Group
- Manage cost engineering change requests from customers for Sales Group
- Supplier invoicing and payment follow up with GP JOULE accounting
- Review OEM suppliers and manufacturers for capabilities and capacity based on sales forecasts
- Manage OEM suppliers and manufacturers for timing and quality (with manufacturing/field engineer)
- Support purchasing agreements and contracts templates development and review with vendors
- Help with the development of bid packages for customers, when required
- Support the validation and certification of products with engineering team and external engineering consultants

Skills & Qualifications

- Supply chain management training / certification
- Minimum 2 years industry experience in vendor management, procurement, and/or cost estimation
- Experience with raw materials/steel and/or industrial electrical procurement considered an asset
- Knowledge of standard purchasing practices and international/North America quality standards and tools (ISO, ASTM, etc.)
- Must be proficient in PowerPoint, Excel, Word, Outlook
- Clear and concise writing skills
- Ability to communicate issues with other groups and team members
- Good interpersonal skills
- Ability to organize and prioritize
- Must be able to work legally in Canada and travel periodically to the US
- College Diploma or equivalent work experience
- Must have valid Passport and driver's licence
- Work travel may be 10-15% of time
- Must have own vehicle or access to vehicle
- Speak fluently and write proficiently in English
