

ANDREW MOLES

Director, Solar & BESS

As director of PCL Construction's Solar Center of Excellence, Andrew has overall operational responsibility for all projects undertaken by the solar division. While serving as client relationship and business development manager, he also has oversight of the division's financial performance, accounting, legal and community relations.

Andrew is passionate about the renewable energy industry and is viewed as a leader among client's consultants and competitors. He is ultimately accountable for PCL's solar goals and project success. He holds himself, and his team to high

ethical standards and believes strongly in leaving a positive impact in all communities we touch. Having worked for PCL for over a decade, Andrew has built an impressive portfolio of projects with a proven track record of successfully delivering projects on time and within budget.

Andrew is also very passionate about bringing value to the communities in which PCL works in. He takes pride in leading a strong and effective team that has delivered solar projects totaling over 660MW with a value of \$992 million in Ontario. These projects include over 37 ground-mount, 10 rooftop, and 5 Battery Energy Storage System (BESS) projects, many in remote locations.

Andrew is responsible for on-time/on budget management of projects, pre-construction constructability assessments, schedule control, budget control, planning subcontractor work, tendering and award, subcontract issuance, subcontractor liaison, change management, safety management, quality management, close-out, commissioning, and district and owner reporting.

"It's not the strongest species that survive, nor the most intelligent, but the most responsive to change."
— Charles Darwin
